

RIPPLES PROGRAMME

VOLUNTEER OPPORTUNITY

Did you know there are various benefits to volunteering? You learn new skills, you give back to a cause you believe in which is a mental and health booster, you make real connections and be a part of a community, it's a career booster and it's fun!

	VOLUNTEER EVENTS	DETAILS	MONTH
1	Ripples Water Footprint Roadshow (Westgate Mall)	Ripples Water Footprint Roadshow will cover North, South, East and West of Singapore with the aim of creating awareness of Water Footprint and water conservation in Singapore. A lined up of activities and information will be shared with the general public to encourage them to take action in reducing their footprint count.	14-16 February 2019
2	Ripples Water Footprint Roadshow (Takashimaya Mall)		12-14 April 2019
3	Ripples Water Footprint Roadshow (location to be confirmed)		April (date to be confirmed)
4	Ripples Water Footprint Roadshow (location to be confirmed)		June (date to be confirmed)
5	Ripples @ PUB World Water Day 2019	Every year, in the month of March, Singaporeans from all walks of life come together to celebrate Singapore World Water Day (SWWD), an occasion dedicated to celebrate, appreciate and conserve water. This year, Ripples is looking to build a 300 strong contingent for a 1.8KM walk and to form a blue water droplet that will be captured by a drone camera!	2 March 2019
6	Ripples @ Earth Hour 2019	For the second year around, Ripples will have a booth as part of 2019 Earth Hour Festival. This year, we will be launching the Water Footprint calculator at our booth where you can determine the volume of water used daily. This includes both direct and indirect water consumption. With various exciting activities planned out, we aim to increase the knowledge of Water Footprint, why it matters and how one's Water Footprint count impacts Earth's most precious resource.	29-31 March
7	A Storytelling Special on Water with National Library Board	Ripples will be collaborating with NLB by being a part of the storytelling programme for children to create opportunities for our Water Warriors to share water conservation messages, inspire children at a young age to understand and appreciate the importance of water conservation in Singapore and nurture a love for reading and learning amongst the audience.	July-September <i>(date to be confirmed)</i>
8	Pulau Ubin Kayaking and Clean Up Session	Ripples volunteers get the opportunity to kayak from the open sea to the calm waters where the mangroves are. Along the way volunteers will learn the importance of the area, mangroves and it's ecosystem and help pick up trash.	4 May 2019 & 1 June 2019
9	Pasir Ris Mangrove Clean Up Session (On Foot)	During the high tide, manmade waste such as plastics and foam pieces get stuck in our mangrove forest. Volunteers can help to clean up the mangrove bed and prevent such inedible material to be ingested by our amazing mangrove animals.	3 August & 1 October 2019 (tbc)

Together with the HSBC Water Programme, WWF-Singapore believes that water is vital to building healthy communities and developing national economies. Come join us as a volunteer today and you will receive a volunteer kit to set you off as a Ripples Water Warrior and e-certificate to appreciate your time! For more information and registration, contact Tiara at thdevaraj@wwf.sg
